With the support of Blind Athletes of New Jersey, NJCDB will have an opportunity for the children to sample various different sports in a fun and safe environment. There will be several stations with support staff to encourage students to try a sport driven activity they may not have otherwise had the opportunity. Blind Athletes of NJ is a non-profit organization who's mission is simple, "Happiness through adaptive sports". Children and families will have an chance to hear about their program and opportunities in their area.

NJCDB is a free technical assistance program that serves children and young adults with combined hearing & vision loss (0-21) throughout the state of New Jersey.
